

Seminar Sedimentology & Sedimentary Petrology

SoSe 2024, Tuesday, 16:15

The seminar will be held in presence in room 16-5 or online as video conference via BigBlueButton

30.04. Keno Lünsdorf

Tiny grains, tough challenges, big questions?

21.05. Niklas Keller

*Mg isotope signatures in recent *Glycymeris* shells*

28.05. Sarah Feil

Provenance Analysis of Miocene forearc sediments in NE Calabria

04.06. Oscar Schramm

MSc project/thesis ("Si and O isotopes of marine chert")

11.06. Max Götze

The Ganges–Brahmaputra–Bengal Fan source-to-sink system

18.06. Felix Muuß

Provenance analysis of quartz

25.06. Robert Arato (University of Leoben; **online !**)

What can LIBS (laser-induced breakdown spectroscopy) do what other techniques cannot?

02.07. *no seminar* (WGSG 2024 Conference London)
